ENTERPRISING ENTERPRISES

(GRANITE SPECIALISTS & EXPORTERS)

Factory : Chembarambakkam,
CHENNAI - 602 103. (INDIA)

Dear Mr.Rajesh Sampath,

Enterprising Enterprises started in a very modest way in the year 1970 is today India's No.1 factory with highly sophisticated machines imported from countries like Japan, Germany, France, Italy, USA etc., For production and export of Monuments basically and then branched of to produce slabs and tiles for the building industry. They are having the world's largest complex spread over 120 acres of land.

With Quarries both owned and leased from Government they have more than 70 colours of granite. Mostly in the States of Andhra Pradesh and Tamil Nadu, with many of them exclusive variety. M/s Enterprising Enterprises are the exclusive promoters of world renowned Black Galaxy besides other varieties. Enterprising Enterprises are also the forerunners in inspiring many companies and individuals to enter the granite industry through their consistent advertisements from October 1979.

M/s Enterprising Enterprises are extremely proud that M/s Optima are one of their best associates, more than a supplier of diamond tools and machinery, indigenously produced for more than 7 years now. M/s Optima have played a very significant role in the growth of Enterprising Enterprises during the last 7 years by supplying good quality products very much on schedule. Currently Enterprising Enterprises have a large number of wire saw machines procured from M/s Optima and currently M/s Optima are meeting almost 90% of the total requirement of diamond wire for their various quarries.

/2/

In the long association with M/s Optima, Enterprising Enterprises have always found that M/s Optima have responded to the comments and requirements and based on the feed back given by Enterprising Enterprises have totally improved not only the quality of wire but also modify their machinery to suit not only the granite quarries of Enterprising Enterprises but also several other granite companies. Having tried the machines and the diamond wire from various countries in the world and also that of M/s Optima we have found the diamond wire being supplied is quite definitely among the better class of wire to be compared with any European or Chinese brand. Both diamond wire and the wire saw machines are eminently suitable for the Quarries in Indian conditions. While we wish the Optima team all success in the National endeavour we are, in view of our own experience, extremely confident that they will enjoy the patronage of International customers like us.
